September 8, 2025

## Do you need some ideas on what to do with your Leftover Fabric Scraps?

Finishing a quilt is always a moment to celebrate—each stitch tells a story, and the final product is a beautiful testament to your love, creativity, and the time and work you put into your beautiful creation. Once it has been quilted and the binding is on, you're often left with a colorful pile of smaller bits of fabric that can somehow still be useful. While it may be tempting to toss them, it may be economically beneficial to prepare them for later use or better yet, find a use for them right away.

Whether your scraps are large or small, coordinated or mismatched, they can be turned into something new and useful. In fact, finding creative ways to use leftover fabric is one of the joys of quilting—it keeps your space tidy, your stash under control, and your creativity flowing. For some great ideas, you might want to take a peek at “Sew with Sandy” (not me, a different Sandy) on YouTube. Here is a link to her channel:
